2. History of Europe (1789-1870)		
3. History of Europe (1870-1945)		
4. Fundamentals of Historical Methodology		
Areas of Interest/Specialization		
His doctoral research examines colonial forest policy in the United Provinces, exploring how ecological governance shaped and was shaped by imperial rule, local resistance, and resource control. His interests span Modern Indian and Contemporary World History, with a focus on international relations, national security, and shifting global power dynamics. His work bridges environmental history and strategic thought to offer fresh perspectives on power, governance, and the making of the modern world.
