Greetings! We are from **WLARET** (The Book Reading Company, Hyderabad). We conduct **Book Reading Competitions (Online)** for College Students every year at the National Level. The Competition encourages Book Reading habits and helps to improve **Knowledge, Vocabulary, Written Skills** and also **reduce Mobile usage**. We contacted the college earlier.

On www.WLARET.com the Competition began on **May 1st** and is till **October 31st (6-Months)**. In this Competition, when a student registers, we give them a list of 12 Best Books (3 Free E-Books included), according to his/her age. Once Student finishes reading these books, we ask them questions; upon answering them correctly, they get to **Win Prizes**. Students are already participating from 20+ Cities across the Country and more Students are registering.

We would like to cordially invite Students of **Motilal Nehru College** to Register, participate, win Prizes at www.WLARET.com ; We are attaching our **Flyer** (can be forwarded to the students) which has details on the process to Register for the Competition. This is an amazing competition which encourages young minds to resort to the magical world of books. A competition which can be participated at the comfort of your home but leads to the development of vocabulary and wisdom through carefully curated books according to the age.

This competition has helped me read a lot more books, write better English and think from my point of view of how the book could be better.

I got the link of this website from a friend. So, I thought I would try this as I loved reading books. I already have a big cupboard full of books. Story books. And Wlaret has a great, awesome collection of books. I loved this competition. Thank you Wlaret!!

I am not a book worm, neither do I hate books. But recently I have not been reading much. Then, I received the email, saying Wlaret's book reading competition '2023' had started. I logged in to see the list of books, and I was quite curious to read these, the books chosen were amazing. So thank you Wlaret for this challenge and encouraging us to read further.

This was the first time I attempted a reading competition. I was excited to finish each book and complete the question and answers. This is my first medal. I always wanted a bookmark, and I got it through this competition. Thank you for organizing such a competition.
